Email:

Subject: Processing Lines Including Primary, Secondary and Tertiary Processing, Raw Material/ Finished Product Storage and Packing" under the **Pradhan Mantri Formalisation of Micro Food Processing Enterprises Scheme (PMFME)**- Cancellation of award under tender No UHF/DR/VIII-51/2021/2977 dated 02.08.2025.

Reference:

1. This office supply order No UHF/DR/VIII-51/2021/-4182-83 dated 26.09.2025.
2. Another letter bearing No. UHF/DR/VIII-51/2021/- 4939 dated 04.11.2025 and letter No. UHF/DR/HGI-209-38/2025/- 5319 dated 19.11.2025 requesting not to execute the work.

Dear Sir,

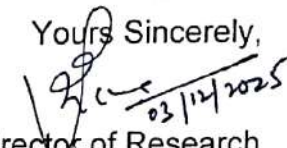

1. This office received a complaint letter from Grain Care Technology (**Complainant**) on 3-11-2025 (one of the bidders) in which deficiencies in the tender selection process to select the L1 bidder been pointed out in detail.
2. The complainant first submitted that the Technical Evaluation Committee (TEC) wrongly rejected his company's technical bid even though 2 similar successful works were uploaded. We have gone through the averments of the complainant and has noticed that on the e-tender portal (Annex-I) only 2 similar successful execution of works has been asked, whereas in the tender document Section B (eligibility criteria) Part IV (Annex-II) uploaded, it was 3 similar successful works. So, as per the law any ambiguity in a **bid document** is interpreted **against the party that drafted it**. TEC erred in its decision by disqualifying the complainant and should have accepted as the University drafted the tender document.
3. The complainant further points out there was requirement for Food Testing Equipment's against which authorization certificate or OEM (Original Equipment Manufacturer) certificate or if the company is manufacturing then the brochure/catalogue has to be attached with technical bid. The complainant then submits that pledging MSME certificate does not entitle any bidder to qualify. The complainant has further submitted that there are discrepancies in the other technical bids i.e. M/s Shiv Engineers, KK Life Sciences, Bajaj Pack Ltd and in case of Havard Industry bid, the discrepancy is non pledging of EMD and Performance Guarantee in favour of the Institute.

The complainant issues / discrepancies in the technical bid of Bajaj Process Pack Ltd (L-1 bidder) has been relooked. The complainant has alleged in case of technical bid from *The Bajaj Process Pack Ltd (L-1 bidder)*, the boiler should have been **IBR Boiler certified** whereas the L-1 bidder has written clearly in bold letters that it shall be **Non IBR type (Annex-III)**. The TEC erred in noticing this flaw in the technical bid. Next, the complainant pointed out that some of the

03/12/2025

equipment listed in the bid are laboratory equipment only manufactured by certain companies, but the L-1 bidder has not attached any catalogue, if manufacturing himself or authorization certificate from OEM and which type of brand is being provided. Complainant then submits that MSME certificate as attached by L-1 bidder in technical bid is for the category of manufacturing of food processing machinery and not for laboratory equipment. We have noticed that the manufacturer Certificate as given by the L1 bidder is for complete fruit and vegetable processing packaging and canning machinery manufacture, milk and diary (**Annex-IV**), and not for laboratory equipment. No original manufacture certificate (OEM) for laboratory equipment i.e. water activity meter, viscometer, lab colorimeter & infra moisture meter has been given. Even no catalogue given as was the condition in Part C, para no-29 of the tender document (**Annex-V**).

4. Therefore, it is imperative that in order to **promote fair and just competition**, and **to seek bids as per the technical specifications**, it is decided to cancel the award letter given to your firm vide letter No. UHF/DR/VIII-51/-2021/- 4182-83 dated:26.09.2025 and we are terminating the contract also.

Yours Sincerely,

03/12/2025
Director of Research

- l. The bidder shall pay the respective amount of Earnest Money deposit (EMD) of complete assembly for which the bid is submitted by way of FDR in favor of "Rs 50,000 (Rs Fifty Thousand)" drawn on any Nationalized Bank/ Scheduled Bank and payable at Nauni, Solan.
- m. Bids received without tender fees and Earnest Money deposit (EMD) shall stand rejected and thus shall not be considered for evaluation etc. at any stage. The Earnest Money Deposit of the successful Bidder may, at the discretion of Tender Inviting Authority be adjusted towards the Security Deposit payable by the Bidder.

B) Eligibility Criteria

The bidders must fulfil the following eligibility criteria: -

- i. The bidder should be an established Manufacturer/fabricator of Food Processing Equipment or Authorized Supplier/ Dealer, Turnkey Solution Provider or EPC (engineering, procurement and commissioning) contractor for food processing lines.
- ii. The bidder's firm must be registered with the appropriate authority and shall be engaged in manufacturing and/ or supply of similar machines or turnkey execution of for the last three (3) years. The bidder has to enclose Registration Certificate or any other documentary proof.
- iii. The average annual financial turnover during the last 3 financial years ending on 31st March of the previous financial year (2024-25) should be at least Rs. 1 crore/year. Copies of audited balance sheet of 2022-23, 2023-24 and 2024-25 to be attached as documentary proof.
- iv. The bidder also required to enclose at least 03 successful satisfactory supply/ work order and installation Certificate/Completion Certificate/Performance Certificate for work in of Food Processing Lines of Rs.50.00 lakhs or more for last 03years ending 2024-25.
- v. The bidder should have PAN, GST Registration, UdhogAadhar/ Udyam registration and Import License, as applicable in their case and should submit a copy of each of these documents along with acknowledgement copies of the IT Returns for the last 3 financial years.
- vi. Supplier or Authorized Dealer/distributor of a reputed foreign or Indian manufacturing company. The bidder has to enclosed appropriate registration and dealership letter/certificate.
- vii. The tender will be awarded to a single bidder; therefore, the firm must be capable of supplying the complete set of equipment listed under Section A – Processing Lines (including primary, secondary, and tertiary processing equipment, raw material/finished product storage, and packaging) as well as Section B – Boilers, RO Plants, and other auxiliary equipment and Section C- Food Testing laboratory.

C) Techno-Commercial Bid

(The pictures shared are indicative only and our company reserves the right to amend the same periodically to incorporate design improvements. The final equipment supplied may differ with the picture but would match the performance parameters being shared.)

SILENT FEATURES:-

- Skid Mounted Automatic Coil Type Boiler incorporates Main Boiler shell duly insulated with ceramic blanket insulation ,Economiser to preheat water ,Optimiser interconnected with fuel pump,pipelines,Control panel ,Burner etc for an Automatic Operation and efficient steam production.
- Coil Type boiler incorporates water tube design which ensures low system lag and rapid warm up response which ensures quick production of steam without storage and **classifies under NON-IBR Design.**
- Incorporates Rapid Steam Production within 5 minutes of start-up with Automatic on-off controls to suit intermittent and variable steam loads and ensure high efficiency and low running cost.
- It must be IBR-certified (Indian Boiler Regulations compliant)
- It should have a capacity of 500 kg/hour with rated pressure of 8-10 bar.
- It should be diesel operated with working efficiency of 80-90% and corrosion resistant.
- It should have a pressure gauge, pressure relief valve, water level indicator, low-water cut-off, automatic feed water system, fusible plug, manhole, mud box and safety interlocks.
- Fully Automatic Coil type Boiler with 3-pass design with built-in economizer for producing Steam **pressure up to 10.5kg/cm² and works at high efficiency levels of over 80-90%,thus reducing working efficiency and reducing carbon Footprint.**
- **Fitted with Italian Burner for an efficient combustion and heating efficiency.**
- Failsafe design, dependable safety instruments to ensure smooth and safe operations.
