Important research publications

- Chauhan N, Sharma N and Singh U. 2018. Effect of *Elanta Super* (N-Acetylcysteine-4-Carboxylic acid) on fruit set, yield and quality of Apple cv. *Starking delicious*. *Journal of Pharmacognosy and Phyto-chemistry* **7**(3): 1759-1761
- Singh SK, Shukla A, Sharma HR, Singh U and Thakur A. 2014. Effect of different mulches and biofertilizers on disease incidence/severity and yield of tomato. *Plant Disease Research* **29** (2):156-164
- Singh SK, Singh U, Sharma HR, Shukla A and Thakur A. 2015. Effect of mulches and biofertilizers on nutrient availability and yield in tomato. *Annals of Biology* **31**(1):75-84
- Singh SK, Thakur A, Sharma HR, Shukla A and Singh U. 2014. Influence of mulch and biofertilizers on growth and yield of tomato. *International Journal of Bio-resource and Stress Management* **5**(2):186-193
- Thakur N, Thakur BS and Singh U. 2014. Health and available nutrient status of plum orchard soil under integrated nutrient management. *International Journal of Farm Sciences* **4**(4):72-78
- Thakur N, Thakur BS, Singh U and Singh SK. 2014. Influence of integrated nutrient management on soil health, fruit yield and quality of plum (*Prunus salicina* L.) cv. Santa Rosa. *Green Farming* **5**(6):976-979
- Raina JN, Singh U and Bhandari, AR. 2006. Status, form and transformation of boron in Apple orchard soils of Himachal Pradesh. *Journal of the Indian Society of Soil Science* **54**: 45-49
- Singh U, Tripathi D and Sharma U. 2003. Standardization of leaf sampling time and nutrient removal by plum. *Annals of Plant and Soil research* **5**(10): 35-37
- Tripathi D, Bhandari AR, Bhardwaj SK and Singh U. 2003. Effect of long term application of rock phosphates, superphosphates on the availability of phosphorus and fruit yield of plants. *Annals of Plant and Soil research*. **5** (1):20-23
- Tripathi D, Bhandari AR, Bhardwaj SK and Singh U. 2002. Evaluation of rock phosphates, superphosphates and their mixture with or without FYM for peach. *Annals of Plant and Soil research* **4** (2): 238-241
